## Adoptions, Collections, Real Estate, Wills

### Adoptions

Adoption laws in New York are complex and require guidance from an experienced attorney. KSLN attorneys who practice in this area are able to advise clients on their rights and responsibilities as they seek to add to their family through adoption.

### Collections

There are many confusing legal procedures involved with getting a debtor to pay back a debt. KSLN can help you limit your own liability and increase your chances of collecting the debt. If you take the debtor to court, KSLN can help you secure a judgement against the debtor, thereby increasing your chances of collecting the debt.

### Real Estate

KSLN assists clients involved in all types of residential real estate transactions relating to divorce and non-divorce matters. Representing both commercial and private clients, our attorneys can address all filings, proceedings and transactions related to real property, including purchases and sales, construction, mortgages and foreclosures, deeds, and leases.

### Wills

KSLN attorneys meet with clients and listen to their needs. Our services include simple wills, living wills, healthcare powers of attorney, and durable powers of attorney for property.
